

ADA: backing, fees and reserves are not interchangeable

BEFORE DEPOSIT		AFTER DEPOSIT	
103,000,000		113,100,000	
Total State UTxO value		Total State UTxO value	
Backing A	100,000,000	Backing A	110,000,000
Accrued fees F	0	Accrued fees F	100,000
Storage reserve R	3,000,000	Storage reserve R	3,000,000

 **User funds 15,100,000 lovelace**
Gross deposit 10,100,000 = 10,000,000 new backing + 100,000 fee. The remaining 5,000,000 funds the allocations below.

Share-output reserve	Funder change	Network fee
2,000,000	2,600,000	400,000
Receiver also gets 10,000,000 SHARE	Outside the vault's backing	Illustrative - not a network estimate

118,100,000 in = 113,100,000 + 2,000,000 + 2,600,000 + 400,000 out

Reserve R is unchanged; output storage does not buy extra shares.
